#### **DETAILED ACTION**

# Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 31-33, 64-65 & 71-72 are rejected under 35 U.S.C. 102(b) as being anticipated by Boerger (US 3,625,384). Boerger discloses a casing having a guide structure 31, opening proximate a casing second end, selectively moveable retaining elements 52, 53, floating plate 16, C-shaped channels, and L-shaped channels.

### Allowable Subject Matter

Claims 25-30 are allowed over the prior art of record.

Claims 34, 66-70, 73 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### Response to Arguments

Application/Control Number: 10/805,877

Art Unit: 3652

Applicant's arguments/amendments filed September 6, 2006 have been fully considered and are not persuasive. Applicant's amendments with respect to claims 31-33 & 64-65 have been considered but are moot in view of the new ground(s) of rejection.

#### Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Us 4,026,438 to Blume et al., US 5,018,249 to Andersson et al. and US 6,539,833 to Zatterqvist disclose the addition of floating plates to tray retainers and Graham discloses a plurality of selectively movable retaining elements.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Application/Control Number: 10/805,877
